About Infinite Energy & Technology (IET)

- Infinite Energy & Technology is a fast growing company in the field of renewable energies in India, started by young techno crafts having wide range of experience in different stream of industries with successful track record.
- IET is a ISO 9001-2015 organisation & accredited channel partners with many international organisations for Solar PV On-grid and Off-grid Application.
- Knowledgeable work force with more than 150 MW + Experience in Power Industry since 2010.
- We provide efficient and most economical project solutions at your door step.

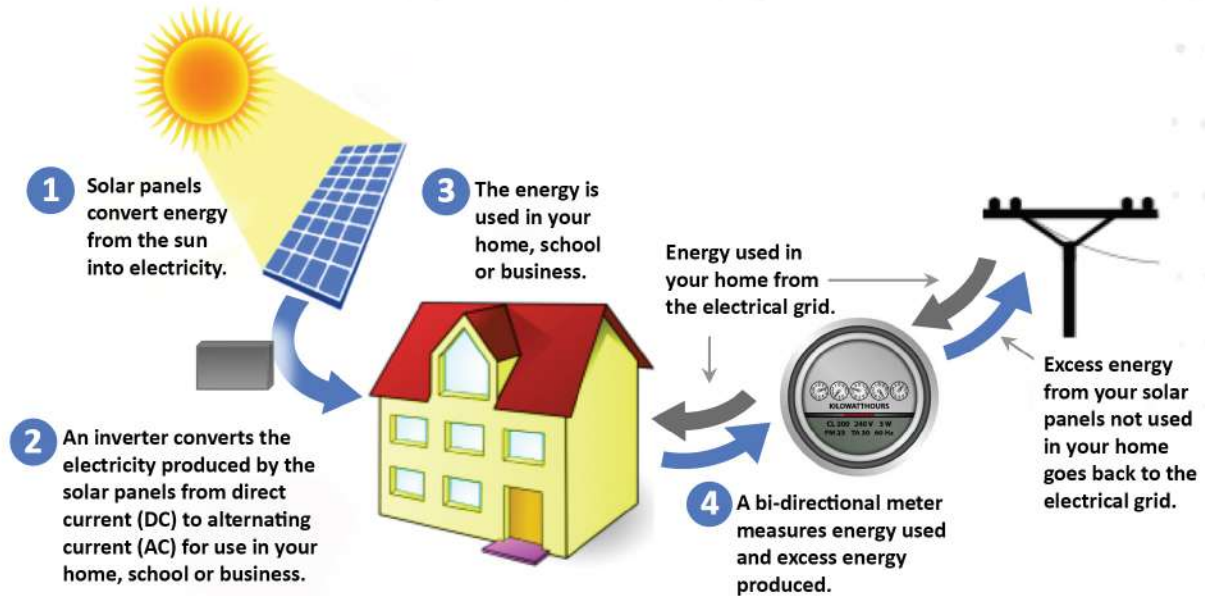

Project Services :

- Feasibility Study, Project Concept and Formulation.
- Comprehensive Project Report.
- Simulation Modeling and Analysis.
- Civil and Structure Engineering- Conducting Geotechnical Investigation and Topographical Survey to get the soil properties, Foundation of Power Plant Equipment, Fencing and Building for control room.
- Engineering - Design and Selection of Power Plant Equipment - Preparation of single line diagrams, Plant Layout, Substation Diagram, Wiring Diagram, Earthing Diagram, Cable Schedule, Cable Trench Layout and Power Evacuation Plans.
- Project Implementation, Procurement Schedule, and Monitoring.
- Project Execution, Deliverable strategy, Installation, Testing and Commissioning of the plant.

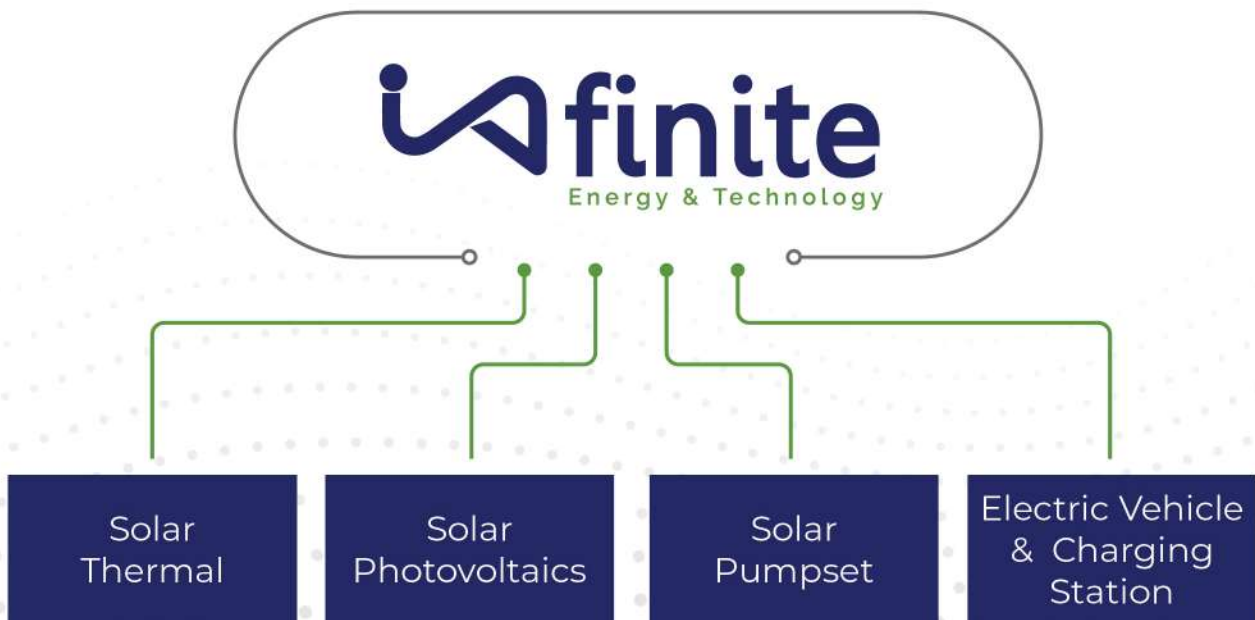

How Net Metering Works

Grid Connected Solar PV System

A grid tied Solar PV System is connected to a large independent grid and feeds power into the grid. This is a form of Decentralized Electricity Generation. In this case only the excess is fed into the grid through a grid-controlled inverter.

Business Vertical
