## About Company

- Infinite Energy & Technology (IET) is established in 2020 at Ahmedabad to serve the nation to use renewable energy from the concept of the promoter who are having speciality in their respective field around the world.
- IET is ISO 9001-2015 organisation and accredited channel partners with many national and international organisation for Solar PV on-grid and Off-grid application.
- IET Provides Energy Solutions in the field of solar PV and Solar thermal applications, Hybrid power plant, Electrical vehicle and battery storage charging stations.
- The team member of IET is having wide experience for thermal Power Plant and Solar Power Plant with cumulative experience of 150 MWp.
- Team member of IET are activated in solar power sector from Year 2012-13.
- The Key Management Team of the company cumulatively holds experience of installing more than 100 MW of solar power projects in small and large capacity around the world. They have also experienced to sell more than 50 MW of Solar module, Inverter and BOS.
- The team member of IET has completed installation of more than 25,000 KW of rooftop solar power plants in various countries till now and will be executing more than 25000 KW solar PV installations during Financial Year 2021-22.

## Our Team

The biggest strength of IET is its highly motivated and dynamic team having rich experience in industries as well as academia and having long term vision on Indian and global energy sector with emphasis on Solar and Renewable Energy Sector. The key management team is as listed out as per following.

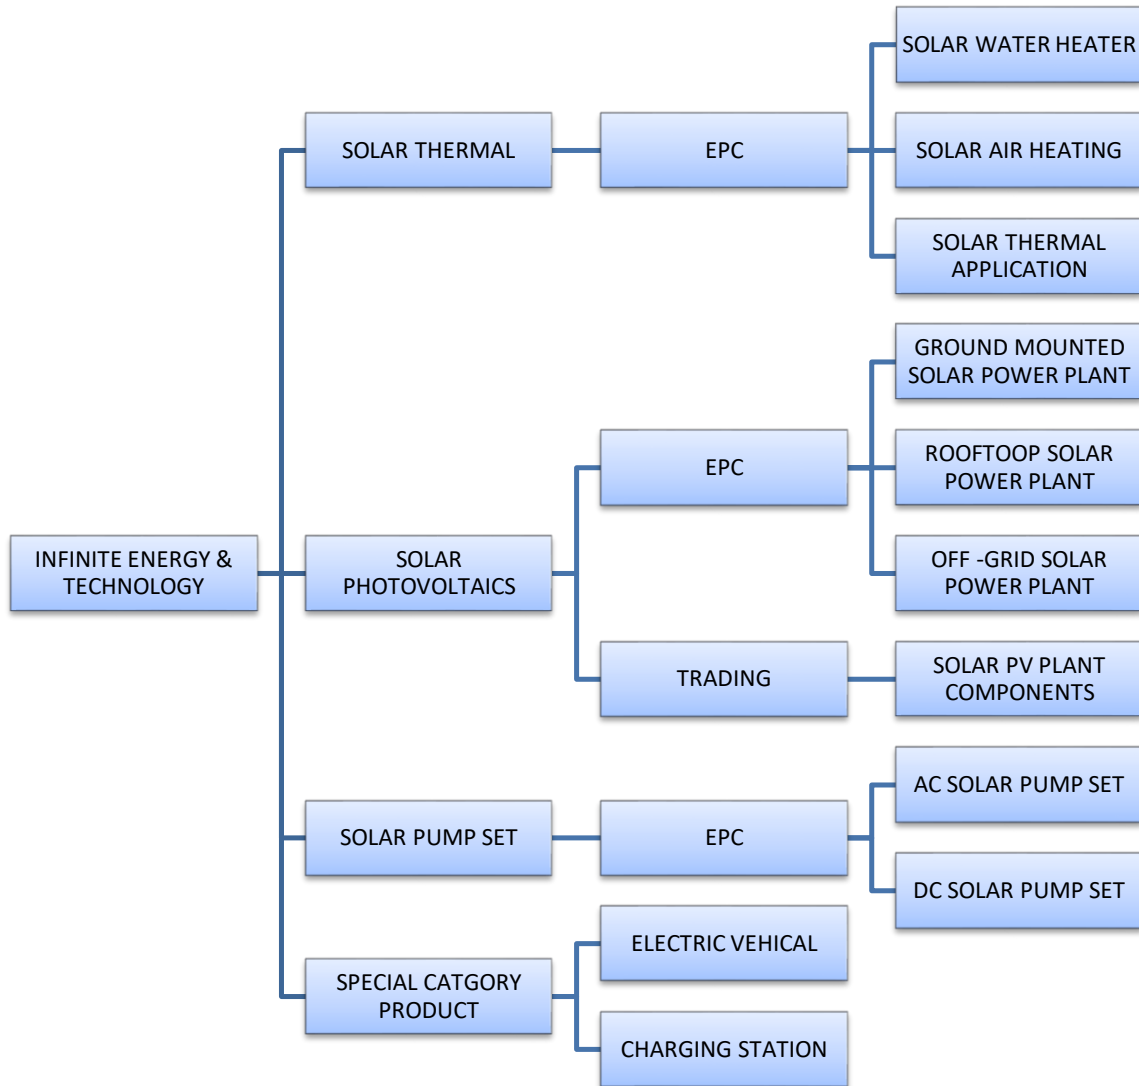

Key Management Personnel	Brief Overview
<p data-bbox="99 695 375 814"><b>Mr. Shailesh Dhameliya,</b> Founder &amp; Managing Director</p> 	<ul style="list-style-type: none"> <li>• He is the Founder and Managing Director of Infinite Energy and Technology. He has knack towards techno-commercial feasibility and commercializing technologies as business, with more than 20 years of experience in field of Energy and specialization in EPC of Energy Projects- Solar PV Power plants, Gas Engine based Captive power plant and Oil and Gas Projects</li> <li>• He has vast experience in energy sector, he has earlier associated as project engineering -head with Siemens Energy Ltd. (Formerly known as Dresser-rand) at Siemens Energy Ltd.</li> <li>• He has managerial experience in design and engineering in energy sector at Reliance Industries Ltd</li> <li>• He has worked at Bechtel Ltd, UK for India's largest Grass root Refinery Project of Jamnagar.</li> <li>• He has earlier associated with Larson and Toubro Ltd as design engineer.</li> <li>• Being an engineer, has shown commendable interest in nurturing renewable energy and non-conventional energy start-ups and handholding them in taking their products to promotion and distribution in India and other countries.</li> <li>• He has trained for Gas Engine at GE Waukesha; USA and he is certified Gas Engine Personal by GE Waukesha.</li> <li>• He is Certified Internal Auditor for Quality Management System by Lloyds Register (LRQA) in 2011 batch.</li> <li>• He is certified Internal Auditor for integrated management system as per ISO 9001-2015, ISO 14001:2015 and OHSHA 18001:2007 by DNV- GL.</li> <li>• He is certified Six Sigma Yellow belt by Dresser-rand- Process Innovation and Six Sigma Green belt by Simpli learn</li> <li>• He is certified for export-import practice by AMA (Ahmedabad Management Association)</li> <li>• He is certified for piping engineering proficiency by Indian Institute of Technology, Powai.</li> </ul>
<p data-bbox="99 1814 321 1871"><b>Mr. Kavan Raval,</b> Head – Business</p>	<ul style="list-style-type: none"> <li>• Electrical Engineer having wide range of experience for project management in various field i.e Oil &amp; Gas, Power, Chemical, Petrochemical, paper pulp.</li> </ul>

# INFINITE ENERGY & TECHNOLOGY

---

Key Management Personnel	Brief Overview
	<ul style="list-style-type: none"><li>• Has wide experience in EPC of small and large solar PV power plant. Had executed more than 50 MW + solar PV plant.</li><li>• He is also active member in EV group for developing EV and charging station.</li></ul>

## BUSINESS VERTICALS –

## Present Business Activities:

IET provides various energy solutions with focus on solar PV and Solar thermal applications as mentioned below:

### 1. Solar Photovoltaic(PV) System

IET offers grid connected solar PV systems, rooftop solar PV systems, off grid solar PV systems, solar pumping solutions, building integrated PV systems, etc. by utilising high quality solar modules, inverters, controllers and storage batteries.

### 2. Solar Thermal

#### a. Concentrating Solar Power System

IET offers concentrated solar thermal systems to generate solar steam with help of parabolic troughs and Scheffler solar dishes for various applications like process steam, water desalination, wastewater evaporation, incinerator, solar air-conditioning etc.

#### b. Solar Water Heater:

IET offers solar water heating solutions for residential, commercial and industrial purpose using solar energy. IET provides two types of solar water heater: (1) Flat Plate Solar Heater and (2) Evacuated Tube Solar Heater 3) Direct tube heater

#### c. Heat Pump

IET offers heat pump solutions for residential, commercial and industrial purpose using solar energy.

### 3. Consultancy, PMC& EPC of Solar Power Plants

IET provides system integration, consultancy services and Project Management services for implementing medium & large-scale solar power plants at various stages like planning, Design, Engineering, procurement, erection, commissioning and lesioning etc.

### 4. Support for solar EPC company by providing them Marketing consultancy by generating leads to grow their business.

### 5. Support for solar EPC company by providing cost effective sourcing from around the world which enable them to provide quality products at reasonable rate.

**FIVE REASON TO SELECT INFINITE ENERGY???**

**PROMOTOR PROVIDING ENERGY SOLUTIONS SINCE LAST 25 YEARS**

**WELL EXPERIENCED AND DEDICATED TEAM**

**PROMOTOR INSTALLED MORE THAN 100 MW<sub>p</sub> OF THERMAL CAPTIVE POWER PLANTS**

**PROMOTOR EXPERIENCE OF MORE THEN 50 KW<sub>p</sub> OF ROOFTOP SOLAR POWER PLANT PORTFOLIO**

**MANAGEMENT TEAM HAS COMBINED EXPERIENCE OF 150 MW<sub>p</sub> OF SOLAR PLANT INSTALLATION**

## **OUR VALUABLE CLIENTS**
